PREPARED BY

Sunil Chauhan

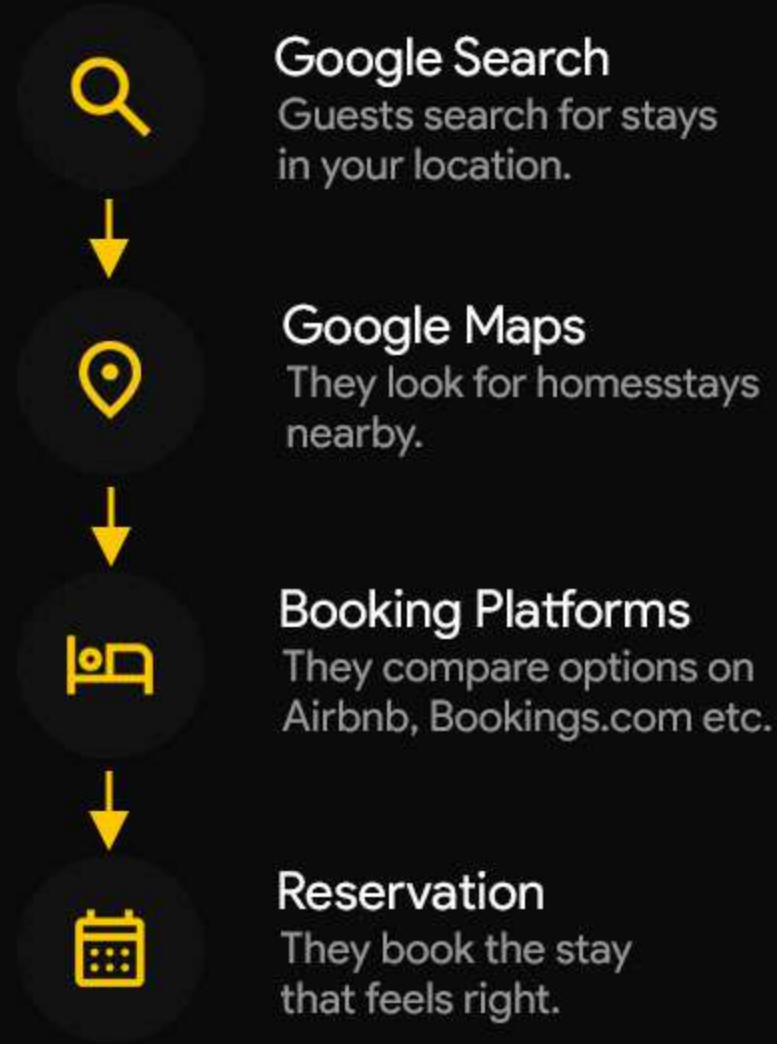

Founder, Buildbrand.site

Most homestays don't have a booking problem.

They have a **visibility problem.**

Today's travellers discover, research and book online.
If your homestay isn't visible, you don't get considered.

Today's Guest Journey

If your homestay is missing from any of these stages,
you loose bookings before guests ever contact you.

THE COST OF BEING INVISIBLE

Guests cannot book what they cannot **find**.

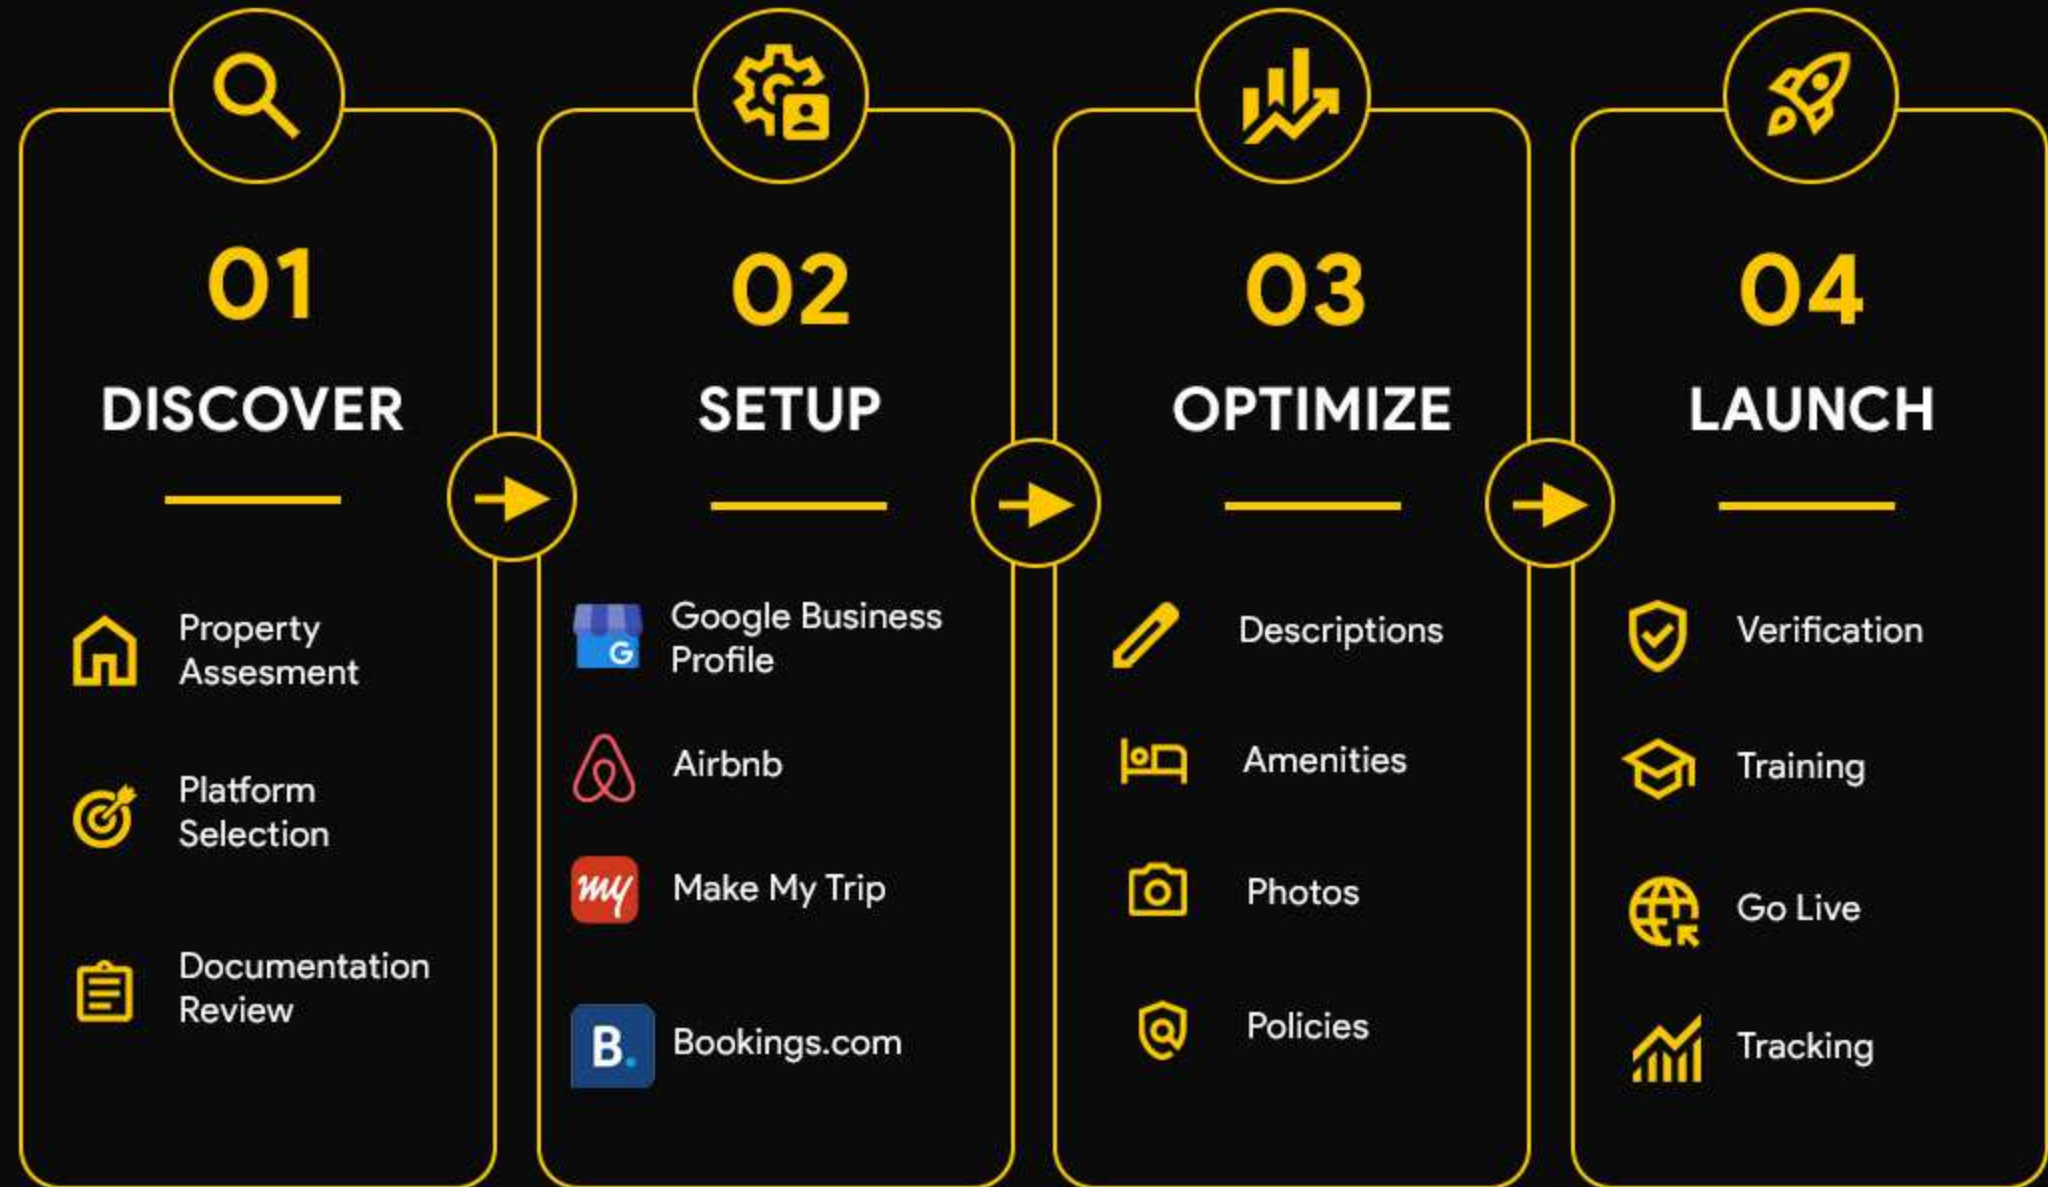

A beautiful property with poor visibility
will loose to an avarage property
with **great visibility**.

Every missing platform is a **missed opportunity** to appear in a guest's search.

The Stay Visible™ FRAMEWORK

Our proven 4 step system
for launching homestays
online.

Every successful homestay
follows the same journey.
